

CHURCH & COMMUNITY TRANSFORMATION

THEMATIC PROFILE

INTRODUCTION

Pak Mission Society (PMS) is a Faith-Based National Humanitarian and Development Organization, registered under Section 42 of the Companies Act, 2017, with the Securities and Exchange Commission of Pakistan (SECP). PMS holds a valid Memorandum of Understanding (MoU) with the Economic Affairs Division (EAD).

PMS has been dedicated to empowering vulnerable and unreached communities across Pakistan, with footprints in over 47 districts and strong outreach through 11 regional offices. PMS has been serving communities to live with dignity, hope, and self-reliance, and has directly impacted more than 1.7 million beneficiaries since its inception in 2004, without any discrimination based on religion, ethnicity, gender, or social background.

THEMATIC INTRODUCTION

The Church and Community Transformation (CCT) theme of Pak Mission Society (PMS) lies at the core of its vision and mission. With a commitment to fostering holistic community transformation, PMS employs innovative, unconventional models that challenge the status quo and embrace collaborative partnerships. As a pioneer of the CATCH (Church and Community Transformation through Church) initiative, PMS has successfully expanded its reach and impact across multiple levels. PMS has strategically positioned itself for the future using the **4Es** partnership model, designed to bridge the gap between church and community while elevating faith as a key driver for sustainable development.

From past 5 years, PMS has initiated multiple projects aiming at building the capacities of Pastors so that they can;

Effectively lead and operate respective Churches.

Act as drivers of change in terms of community development.

Furthermore, for economic transformation of target communities, PMS has initiated

Business start up and scale up grants.

Business trainings.

Business mentorship programme.

Empowering local churches to transform the lives of marginalized communities by building their capacities and providing essential resources.

Mobilizing, equipping, and empowering pastors, women, and youth to be witnesses of Christ and agents of change.

Serving marginalized communities through various communal services and establishing a research and learning mechanism.

Strengthening the Church Engagement Vision based on the 4Es model (Engaging, Envisioning, Enabling, and Empowering) and aligning it with PMS's broader outreach vision, integrating it with other thematic areas.

4Es PARTNERSHIP MODEL

ENVISION

To envision together as a Local Church for mainstreaming most pressing issues of community and contributing in community uplift and social cohesion.

ENGAGE

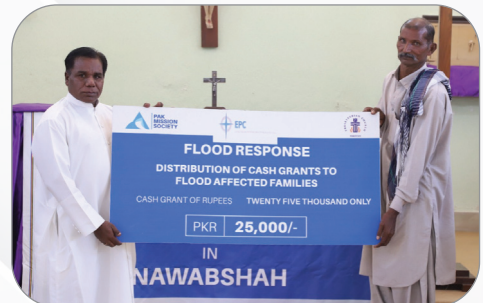

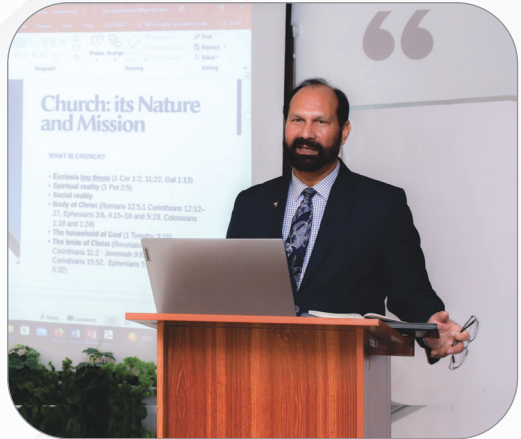

To engage Church as a backbone to reach unreached communities to be witness of Christ and play their positive role in community holistic development.

ENABLE

To enable local groups and vision movements to be engaged in Integral Mission and follow their life callings.

EMPOWER

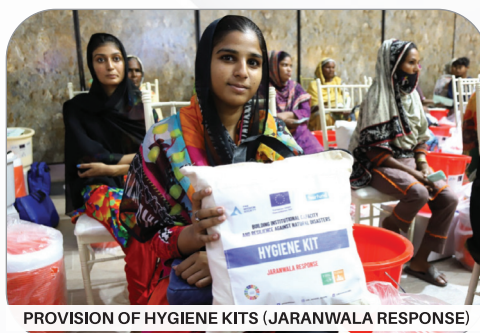

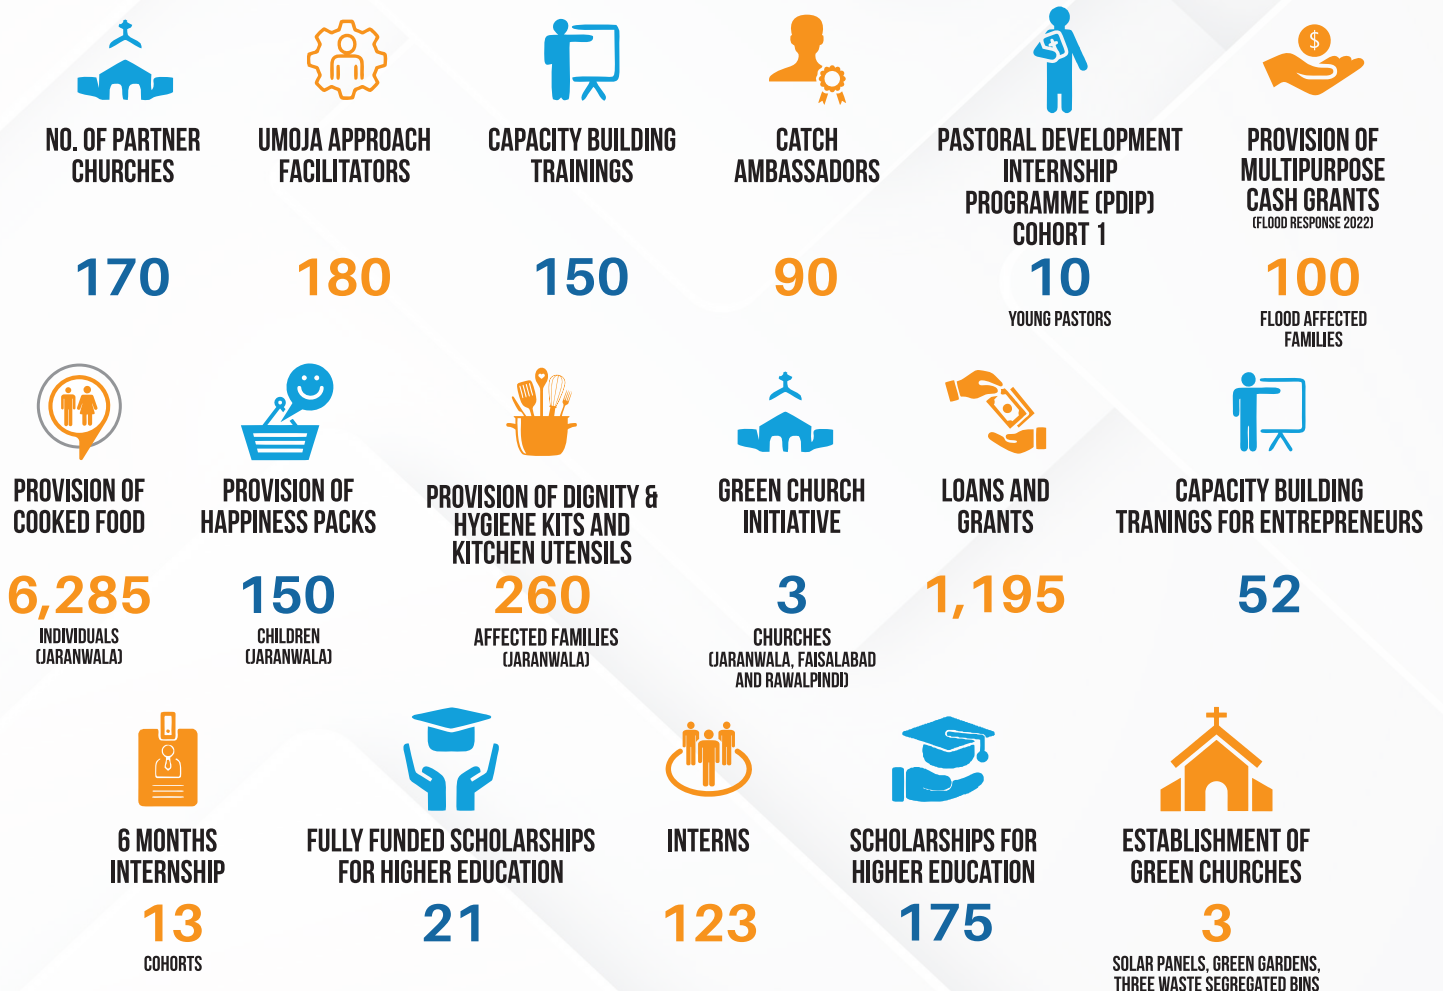

To empower communities and youth by investing in their God-given potential, capacities and skills to make them salt and light in the country.

EXPOSURE VISIT OF PASTORS

WAY FORWARD

To upscale YDIP and PDIP internship programmes, addressing resource constraints that limit enrollment despite high demand.

To launch Urban Slum Development initiatives in Christian predominant slums of Islamabad.

To expand and replicate the Green Church initiative across Pakistan.

To start an innovative Youth Development Program in Pakistan, addressing the diverse transformational needs of youth through targeted development interventions.

To broaden the reach of the CATCH program by launching its initiatives in rural regions of Pakistan.

To establish Entre Sol Labs in the major cities of Pakistan, equipping Christian youth with vocational training and entrepreneurship skills.

To advance and extend the scope of the Youth Scholarships program.

COMMUNITY VOICES

I lacked the necessary knowledge and experience in managing Church records and strengthening our congregation. Furthermore, I was seeking effective strategies to actively engage the youth in our Church. PMS Church team visited our area and introduced us to the Umoja approach which changed my perception of looking at things. These trainings not only helped me grow personally but also improved our Church's youth. I have learned to maintain our Church records in order, and now we have a Church office.

By using this approach we are now managing our Sunday school classes more effectively by segregating children and youth into different groups according to their age and needs.

Zahid Daniel

PASTOR OF OUR PARTNER CHURCH IN RAWALPINDI

I always wanted to run my own beauty salon, and following my dream I started 'Meerab Beauty Salon' with a modest investment in 2016. However, I lacked business knowledge, including budgeting and managing other expenses. To acquire business knowledge, I was searching for a platform where I could learn about business operations and management. Fortunately, I came to know about Pak Mission Society, which provides business trainings to women entrepreneurs and help them scale up their businesses. These trainings helped me to strengthen my business plan and improve its execution. Additionally, with my savings, I also upgraded my salon, and now earning more than before.

Hina Rashid

WOMEN BUSINESS ENTREPRENEUR FROM LAHORE

Before joining the Youth Developing Internship Programme I had no knowledge or skills in graphic design, and I was unfamiliar with the necessary software. However, I am passionate about graphic design and want to become one of the best graphic designers. As a result of this internship, I learned how to use graphic design software and got better at it. Now, I'm designing IEC materials for my organization, and pursuing my passion. This journey has transformed my passion for graphic design into a fulfilling career.
