

HUMANITARIAN AID

INTRODUCTION

Pak Mission Society (PMS) is a Faith-Based National Humanitarian and Development Organization, registered under Section 42 of the Companies Act, 2017, with the Securities and Exchange Commission of Pakistan (SECP). PMS holds a valid Memorandum of Understanding (MoU) with the Economic Affairs Division (EAD).

PMS has been dedicated to empowering vulnerable and unreached communities across Pakistan, with footprints in over 47 districts and strong outreach through 11 regional offices. PMS has been serving communities to live with dignity, hope, and self-reliance, and has directly impacted more than 1.7 million beneficiaries since its inception in 2004, without any discrimination based on religion, ethnicity, gender, or social background.

THEMATIC GOAL

To effectively respond to disasters/emergencies to protect human lives, assets, and sufferings to recover & rehabilitate vulnerable communities back to their normal life.

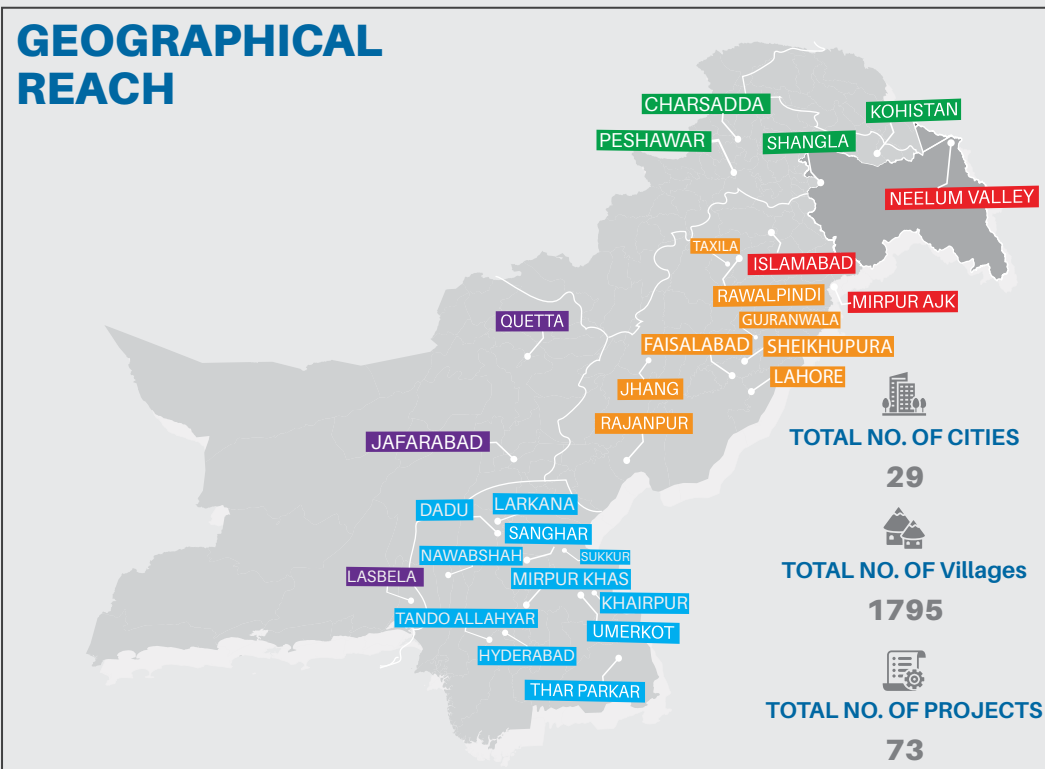

THEMATIC INTRODUCTION

PMS through its Humanitarian Aid thematic places 'People First' while exercising rights-based, and development focused discourse. The programme is tailored to provide humanitarian assistance, emergency response, and long-term development projects and strives to restore dignity, rebuild livelihoods, and foster resilience among affected individuals and communities. As an organization, we are readily available and capable of reaching disaster-hit areas within 72 hours, nationwide. We maintain a strong geographical reach and physical presence across the country and have a long-standing history of over a decade of relief, rehabilitation, and development considering the core humanitarian standards.

“ We are using Linking Relief with Rehabilitation and Development - LRRD approach to improve the capacity of the humanitarian system and to overcome pertinent transitioning challenges in the process to build back better. ”

OUR REACH IN HARD-TO-REACH AREAS

WAY FORWARD (PRIORITIES)

Safe & Resilient Health Systems - Position health facilities for Disaster Risk Reduction (DRR) to ensure continuity of care during crises.

Strengthening PMS Disaster Response Unit - Enhance organizational capacity with specialized teams, systems, and resources for rapid and coordinated response.

National Emergency Medical Volunteers - Establish and mobilize trained volunteers across Pakistan for emergency health and humanitarian services.

Establish IDRN Pakistan Chapter - Lead in forming a Pakistan chapter of the International Disaster Response Network (IDRN) for global linkages and capacity building.

Community-Based Early Warning Systems - Invest in robust, localized, and technology-enabled systems for floods, droughts, and earthquakes.

Prepositioned Emergency Stock - Develop strategically placed stockpiles for timely and efficient emergency response.

Advocacy & Policy Influence - Champion DRR and climate adaptation at provincial and national levels, amplifying community voices in decision-making.

Inclusive Humanitarian Action - Ensure gender-sensitive programming with women and youth at the center, while prioritizing persons with disabilities and marginalized groups.

Climate-Smart & Resilient Interventions - Promote climate-adaptive practices, safe shelters, raised platforms, and disaster-resilient schools in disaster-prone areas.

From Relief to Resilience - Transition from short-term relief to long-term recovery and resilience, linking humanitarian aid with livelihoods, education, WASH, and health.
